VOYGAR
QUALITY IS OUR CONCERN

VOYGAR HOME ONU/ONT Cabinet 9U 19" Inwall Mounting Cabinet

OUN Cabinets are designed to accommodate the Hub of a modern home automation solution.
This product combines both the main patch cabling fi eld as well as active equipment used within a Home/Residential network.
OUN Cabinet has the space and mounting points for an ISP router (compatible with all major providers), Network Switch, CATV splitter along with main patch cabling fi elds to distribute all these services and more throughout the residence.
Flexible mounting rail system allows you to change mounting place of the rails for 10″ or 19″ device installations. It is easy as just to mount right mounting rail to middle for 10″ installations or mount to right
side of the panel for 19″ installations.

Features

For Residential Cabling Systems
Rigid 1,2mm steel construction
Rails can be mounted for 10″ or 19″ installation
Powder coated Grey / RAL 7035 or Black / RAL 9005
Lockable door
